

Introduction

The AME Consulting Group is an employee-owned organization that provides our employees to build their legacy with exciting career opportunities and growth. With a strive for a better tomorrow we have cultivated an environment where learning and mentoring thrives.

AME has a strong purpose of building legacy through our values of connection, dedication, and trust to build our vision of a better tomorrow. AME developed three key objectives to help us achieve this goal:

1. Financially Healthy
2. Happy Engaged People
3. Socially Responsible

Our workplace is a tight knit community, with a strong focus on employee engagement. Here's some things our people have to say about working at AME:

"Having the opportunity to work at AME has been a breath of fresh air. Every single person has made me feel welcome and it is amazing the difference that can be felt when you are part of a team that truly cares about your well-being and success."

"The projects we work on aren't inanimate objects-- They are alive. Breathing. Brimming with life. That is an exciting environment to be a part of."

"I had no idea when I walked into our original office what AME would become I am incredibly proud to have been on this journey and be a part of the AME family and legacy."

About Us

AME is a Western Canadian based Mechanical Engineering (Buildings Engineering) consulting company that specializes in sustainable and environmentally responsible design. Projects are primary located across Canada and range from the design of small commercial and residential complexes to large recreation, hospital, and institutional facilities. Our offices are located in Victoria, Vancouver, Calgary, Revelstoke, and Edmonton offering central locations as well as flexible work hours.
