EVENT SPONSORSHIP

CCW hosts a variety of events throughout the year—including industry conferences, site tours, and highly attended social gatherings. Sponsorship pricing varies depending on the type, scale, and format of each event, allowing partners to choose opportunities that best align with their goals and budget.

One of our flagship events is the LEAP Conference, which brings together professionals from across the construction industry for a day of leadership development, education, advancement, and connection. The conference offers premium visibility for sponsors who are committed to empowering women and promoting equity in the field. With high-profile speakers and strong industry participation, it's a standout opportunity to showcase your company's values and thought leadership.

Our CCW Socials are also a major draw, with more than 160 guests attending from all corners of the construction industry. These lively gatherings celebrate our incredible members, partners, sponsors, and both past and future board members. Sponsoring a Social is a great way to show your support for the community, gain industry exposure, and connect with professionals in a relaxed and engaging atmosphere.

By sponsoring a CCW event, you're not only advancing women in construction, you're also gaining brand visibility, building relationships, and demonstrating your leadership within the industry.

Join us, showcase your company, and be part of a growing network that celebrates progress and inclusion.

CCW BOARD DIRECTORS

The women who make up the CCW Board of Directors are dedicated volunteers who generously give their time and energy to support CCW's mission.

Board members are expected to attend monthly meetings, actively participate in events, and carry out the responsibilities of their roles. In addition to their work with CCW, each director balances their own professional careers and personal commitments.

CCW would not be the organization it is today without the dedication and leadership of both current and past Board members. We are deeply grateful for their contributions.
